VCS Repository: <https://github.com/p-lucero/SharedSpacesApp> Github Repo

Cayleb/Brittany/Nick Contributions: (FRONT END)

The screenshot shows the GitHub repository page for `p-lucero/SharedSpacesApp`. The repository has 0 stars and 2 forks. The 'code' tab is selected, showing a list of files and their commit history. The files listed are `gradle.xml`, `misc.xml`, `modules.xml`, and `vcs.xml`, all of which were committed 6 days ago by Cayleb's changes to try and get LoginActivity working.

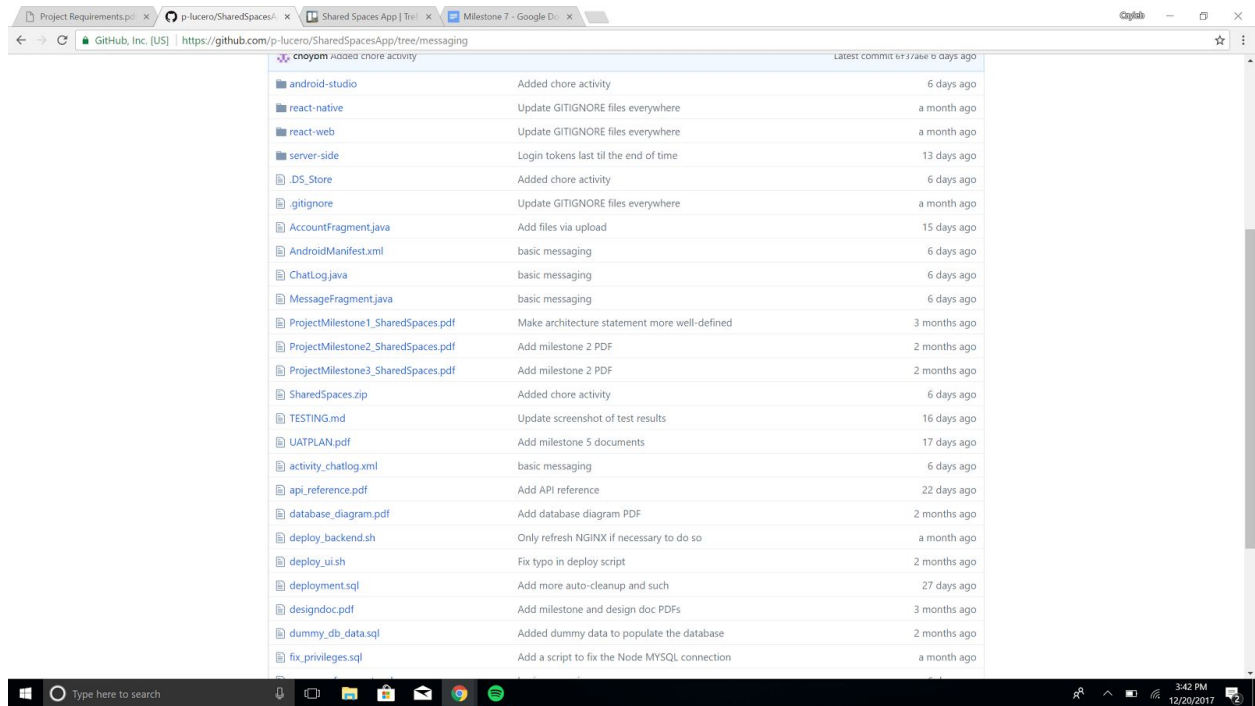

File	Commit Message	Commit Hash	Time
<code>gradle.xml</code>	Cayleb's changes to try and get LoginActivity working	591cc58	6 days ago
<code>misc.xml</code>	Cayleb's changes to try and get LoginActivity working		6 days ago
<code>modules.xml</code>	Cayleb's changes to try and get LoginActivity working		6 days ago
<code>vcs.xml</code>	Cayleb's changes to try and get LoginActivity working		6 days ago

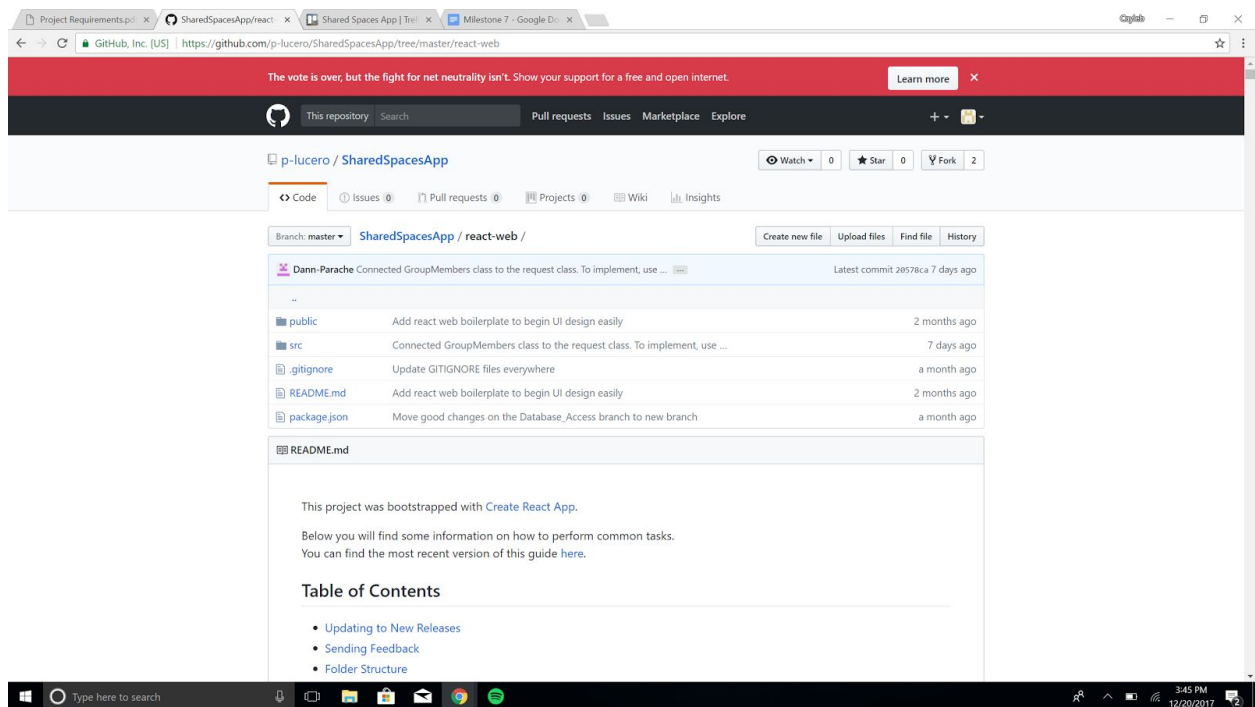

The screenshot shows the GitHub repository page for `p-lucero/SharedSpacesApp`. The repository has 0 stars and 2 forks. The 'code' tab is selected, showing a list of files and their commit history. The files listed are `idea`, `app`, `gradle/wrapper`, `.gitignore`, `build.gradle`, `gradle.properties`, `gradlew`, `gradlew.bat`, and `settings.gradle`, all of which were committed 5 days ago by p-lucero's changes to re-add the requisite things for reminders to AndroidManifest.xml.

File	Commit Message	Commit Hash	Time
<code>idea</code>	Merge branch 'cayleb'		6 days ago
<code>app</code>	Re-add the requisite things for reminders to AndroidManifest.xml	987de90	5 days ago
<code>gradle/wrapper</code>	Added register page		19 days ago
<code>.gitignore</code>	Added register page		19 days ago
<code>build.gradle</code>	Bug fixes, minor layout changes		10 days ago
<code>gradle.properties</code>	Added register page		19 days ago
<code>gradlew</code>	Added register page		19 days ago
<code>gradlew.bat</code>	Added register page		19 days ago
<code>settings.gradle</code>	Added register page		19 days ago

DEPLOYMENT: Deployment came mostly on android studio. In order to run this, download the sharedSpaces.zip on the master branch of the git, and open the gradle with the android studio deployment app. In order to run the app, click the play button on the upper right section of android studio, which builds the app and runs it on the selected emulator. Prompts on choosing an emulator may be used if setting up the for the first time. The team used a Nexus as the basis for testing, any other tests may not run/are untested.
